

## **Remarks**

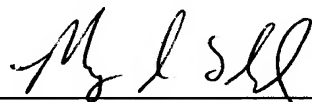

The instant application has been examined and allowed as a patent. Particularly, claims 16, 17, 3-7, and 18-20, which will be renumbered as 1-10, respectively, have been allowed. In this Amendment, dependent claim 18 has been amended to correct a typographical error. The amended dependent claim 18 does not introduce new matter and is fully supported in the originally filed specification.

Amended dependent claim 18 recites, among other limitations, "a spring for exerting a normal force on the wheel to force the wheel to contact a surface under the door to open and close the door." This amendment is fully supported in the originally filed patent application at page 6, lines 23-25. Accordingly, the instant amendment to dependent claim 18 does not add new matter.

Applicant thanks the Examiner for consideration and entry of this Amendment.

Respectfully submitted,

**Brian Freeman**
